

PROJECT DESCRIPTIONS

Babson Place & Hetzel Street Extensions (PID 98687)

- Realignment and extension of Hetzel Street from the reconstructed “Old” Red Bank Road (PID 98685) to Red Bank Expressway and extension of Babson Place from the existing cul-de-sac to Red Bank Expressway at the proposed extension of Hetzel Street
- Reconstruction of “Old” Red Bank Road from Hetzel Street to Red Bank Drive
- Reconstruction of Red Bank Expressway at the proposed intersection of Hetzel Street and Babson Place to accommodate future improvements
- Installation of a new culvert at Deerfield Creek
- Construction of a new 5’ sidewalk for pedestrian/bicycle access
- Removal of the existing cul-de-sac on Babson Place and the connector road from the cul-de-sac to Red Bank Expressway
- Installation of new curb, sidewalks, drainage improvements, traffic control and retaining walls

“Old” Red Bank Road Reconstruction (PID 98685)

- Reconstruction of “Old” Red Bank from just south of Hetzel Street to its existing terminus with Red Bank Expressway
- Construction of a new sidewalk (5’ to 8’) for pedestrian/bicycle access
- Construction of a new bridge over the Genesee and Wyoming (G&W) Railroad to restore the connection of “Old” Red Bank Road
- Construction of new curb, drainage improvements, traffic control and retaining walls
